

# Display beside the product they already trust.

HARD LOCK 24 Sep 2026 · USD · <https://birchreserve.net/> · stamp ~10:15pm ET

Eight category seats inside signed Scale Health hubs. Not an open auction. Not a guaranteed impression buy. First story: thank-you after Scale buy or book — then in-experience display.

## Live proof

Caption on every mock: Illustrative — not your receipt.

## Eight seats

Pain relief / topicals · Recovery hardware · Nutrition · Sleep · Meal prep · Women's health · Men's health · Diagnostics / services  
Hubs are the rooms. The seat is the exclusive shelf in those rooms.

## Launching cohort (logos, not reach)

DR-HO'S · Kalaya · Jill Health · Jack Health · Integrity Fitness · Bird & Be · NutriProCan · Roll Recovery

## Demographics (MODELED — not measured census)

MODELED from Activity Clinic Hubs launching cohort (logos only). Never sell as measured census. No invented reach / CTR / LTV.

- End customer: 30–65, Canada / U.S., recovery / topical / sleep / nutrition / care shopper, often paramedical-insured, mid-to-upper household.
- Context: thank-you after buy or book, on a plan, or in-hub. Not a cold feed impression.
- Brand buyer: founder or brand manager already adjacent to those names.
- Analog only (footnote): open-web wellness CPM often \$8–25; owned / retail-media \$20–80. Birch is priced as a credit, not a CPM guarantee.

## Formats (priority order)

- **post\_checkout / thank-you (after Scale buy)** — HERO · first placement story
- **scheduled\_service / post-book thank-you (after Scale book)** — HERO twin
- recovery\_plan · member\_hub · motion\_15s (in-experience next)

Mockup narrative order: 02 post-checkout first · 04 scheduled · 01 member hub · 03 size map.

DR-HO / Kalaya = proof context only.

## Shopify / hub activation (Phase-1 — Scale Activation)

- Shopify buy thank-you: Checkout UI Extension purchase.thank-you + customer-account.order-status → format post\_checkout
- Hub book thank-you: embed/snippet → format scheduled\_service
- Same agnostic unit; not a second product. No App Store install counts.
- Starting sizes: ~656×280 splash · ~360×640 vertical (mockup 03 DRAFT; IO final).

## Partner activation (same Birch unit — not a second product)

Shopify-agnostic embed / snippet path so Scale Clinic Hub / partner hubs can enable thank-you + in-experience display without custom one-offs. Scale Activation owns Shopify coordination. Care · commerce · display stay three contracts. Link:

<https://scalehealth.ca/clinic hubs> — do not invent Shopify install counts.

## Rate card USD

- hold-190 · \$190 · 7-day look · refund or credit · does not consume a seat
- reserve-490 · \$490 · named category seat · 100% media credit · IO before flight · 12-month credit
- custom · Book a call · multi-hub / exclusive / on-prem
- enterprise · \$100K–\$250K+ · Coming soon / Inquire within · not Stripe self-serve
- reserve-899 remains unpublished/legacy this week so live Stripe sessions still match

### Enterprise · \$100K–\$250K+

Coming soon / Inquire within. Program / annual spend. Not Stripe self-serve. CTA: Book a call / [sales@silverbirchgrowth.com](mailto:sales@silverbirchgrowth.com). Do not invent CPM, impression guarantees, or seat math. Self-serve unchanged: hold-190 \$190 · reserve-490 \$490 · custom Book a call.

## Studio / clinic-hub path

Studios that already own a local audience can add a Scale Clinic Hub (store + booking) and then a Birch unit on that hub. Care, commerce, and display stay three separate contracts. Link: <https://scalehealth.ca/clinic hubs>

## Legal floor

100% media credit. Delivery only under an approved IO that names the surface. Cash refund if no approved surface can be named within 60 days. Credit expires at 12 months. After IO: IAB cancel / makegood. Aggregate reporting only. No PHI. No clinical pixels.
